Gas Company Rebates Now Available!

Nicor and Peoples gas companies recently started a rebate program to reimburse commercial customers for:

- Replacing bad steam traps
- Insulating pipes
- Upgrading to high efficiency boilers
- Performing burner tune-ups
- ...and many more ways to reduce gas consumption!

ACSI President Frank Lacny, was asked to assist on how this program could be improved & expanded to include custom rebates for new (replacement) fuel burners. In doing so, installing a high efficient fuel burner in place of your old inefficient burner can literally save you tens of thousands of dollars!

This program ends October 31st. Act now to get "on board!" Contact John Mansfield at Resource Solutions Group (plan administrator for the gas companies) at 312-755-9020 x3012, or on his cell at 312-890-7162 for details.

Maintaining without Capsizing

That's been the theme for the past year and a half...almost two years. There comes a point when "maintaining's" price tag costs more than investing in new energy efficient equipment that reduces operating costs!. Would 9% energy savings matter? What about 17% energy savings? These are actual savings an ACSI customer received when replacing their boiler & fuel burner. Return on investment happens in months...not years.

Take a moment to visit www.ACSIGroup.com/boiler_burner.aspx to get the information you need to make an informed decision. Click on "**Gaining Efficiencies with a Boiler OR Burner Replacement**" now. It will give you the facts you need to make an informed decision.

Beat the Fall Rush - Schedule Your Boiler/Burner Clean & Check

It seems that the extreme temperatures will follow us into the fall and winter seasons. Predictions state that snow will be in abundance and frigid temperatures will be the norm. This may be right, or this may be wrong.... Can we take that chance? Not when jobs depend on it!

Be sure your boiler and burner is ready to run as efficiently as possible. A clean, check and "tune up" will ensure that you are running at top efficiency!

As mentioned above...*inquire about the burner tune up rebates*....& get some money back from the gas company (What a nice concept)!

Get these inspections completed before the first "cold snap".

Call 773-737-9200 to get scheduled today.
